50) Tap on all four of the even numbers at the same time. The bat will then come out. That's 1, 11, 12. 25) To wake up your friend, tap the door over and over until your friend wakes up. 49) Simply tap where it says "click here" to beat the level. 27) To tap the slowest arrow, tap the word "arrow" in the question because the word is not moving. 16) To answer "how many letters in this sentence", know that the game is talking about the word "letter", so there's only one. 44) To "find the angels", shake your phone until angels appear around the character's head, because she's dizzy. 77) same as above. 22) Mary's the sister in law of my dad's only brother. 12) To click the red square, move shapes out of the way and other shapes will be hiding behind them. Eventually, after about 20 taps, the window will break. 41) To break the window, simply tap the window over and over and over. 26) To tap the smallest cloud, move all of the clouds away from the middle until you see the very tiny one. 4) You can tap the same number multiple times. 54) To replace the old tire with the new tire, drag the words "new tire" over the words "old tire" in the question. 15) There are a total of five holes in the question "How many holes in Volvo". 71) To out the sugar on the coffee, out there sugar on the word "coffee" in the question. 52) To find  $\sin 1/x = 6$  What Is X, use your finger to erase  $\sin 1/$  out of the question. 38) The first ordinal in the sentence is the word "last". 69) simply tap on each of the even numbers in the list of numbers. 34) To create a tornado, turn your phone around as if you were trying to do a fast panorama picture. 60) To guess where is dice now, just tap the shape in the middle. 70) To park the car on the lot, out the car on the word "lot" in the question. 5) Simply do what the game tells you to do. 21) The sun is facing "none" direction. 78) just drag your ship toward the planet. 80) Slide the arrow to unlock. 42) To catch the bird, ignore the cage. 67) Tap the numbers in order from biggest to the next smallest from the previous number. 1) The question says "click here". Move more shapes until the red square appears. 31) To arrange the keys smallest on the left to biggest on the right, flip your phone upside down. 23) Drag every colored shape into the outline of the hexagon, then drag the circle into the circle outline. 14) When you try to tap the numbers from small to big, the numbers will keep changing. 13) To pick the right key, drag the word "key" out of the question and place it over the lock. 48) To open the safe box, change the numbers to 777, which is the lucky number, and hit submit. 79) drag your ship along the same route as the last question. 29) Hit the submit button when the star is in the frame to take a photo of it. 37) To make the dog go home, tap the sun and drag it off of the screen to turn day into night. Tap right, then down, then left, then up. 75) memorize the space ship tracks, and drag your ship through even after the tracks disappear. 59) To find the piano, drag the painting out of the way, then move the other shapes behind it out of the way until you hit the piano. 33) To change centimeters to meters, swipe your finger over the screen to rub out "Centi". 28) All that you have to do is literally tap three motorcycles as they are moving. It's the same birthday every year. To make the biggest possible number, tap the 8 three times to make the number 888. 35) To find the bat, make the sun go away by swiping it off of the screen so that day becomes night. Therefore, there are 9 sheep left. 3) To make the fire, put the unburned pieces of wood into the fire that is already burning. RAID: Shadow Legends - November 2021 Promo Codes 7) If you want to exit, hit exit, but because you don't want to exit, tap "no" to stay on the level. 10) To tap the bottle with lemonade, pick up and drag the word "bottle" out of the question to the word "lemonade". Tap the smallest, then the one closest to the smallest, then the one closest to the previous number that you tapped. 58) Tap on the circle on the far lower right area of the screen and drag it up to the tic-tac-toe box to win the game. NEW: November 2021 Active Promo Codes for Pokémon GO: The Full List and How to Redeem Them 56) to find Y, just tap the letter Y on the shape. 6) If there are 3 apples and you take away two, then you have zero apples, because if you already had apples, then you wouldn't want to take two apples away. 45) You can't tear the paper in half, because the level is programmed improperly. Just tap the number 9 and you win. If you're playing on a notchy phone like the iPhone X/XS though, this doesn't work, so you'll have to go to Settings, then Accessibility, then enable Zoom, then drag the circle while you're zoomed in. 65) simply tap anywhere on the screen to continue to the next level. 46) To find the diamond, take the two triangles and place them inside the oval in a diamond formation. 11) To fit the picture into the frame, drag the word "picture" from the question into the frame. 61) No question is given with this one. The dog will go in its house. So change the number to zero. 2) The average man has only one birthday. All but 9 die. That makes her my mother. 32) To burst all of the balloons, wait until they come up slowly, then swipe over all three of them over and over again. 73) same as above. So instead of clicking on the red button, tap on the word "here". The answer is 42. 51) To "tap on the screen card based on the number displayed on it", simply read the number on the card and tap that same number of times. 40) For  $81 - 80 = ?$ , tap on the little alarm clock on the lower right hand side of the screen. 57) To spell accommodate, simply write the word accommodate into the text box. 39) To change the bike wheel, tap on the wheel on the right and drag it over on top of the left wheel. 30) A farmer has 17 sheep. 20) Instead of trying to answer "What happens if you pick up the sun?", use your finger to pick up the sun, then drag it onto the earth. Just rotate your phone 360 degrees to win this round. 66) For some reason, the game thinks that there are 0 flowers in the yard. 76) same as above. 17) For "answer is the answer" backwards, or "rewna eht si rewna", tap the only non-backwards word, "cool" 18) To type "wolf" simply tap the letters w, o, l, and f, in that order. 36) You're supposed to shake the phone to make the acorns fall, but the function doesn't work. 8) the number 13 is physically the biggest so tap that one. 68) Daniel is the angel in the middle of the characters, so tap the Angel. 55) To create a stop signal, drag the word "stop" from the question into the red circle. 53) To arrange fruits in ascending order, arrange them alphabetically by name. 63) To find "what is this", tap on "This is Spartaaaa!!!" 64) Tap on the word accommodate, as this is the correct spelling. 62) To find what is in the center of the galaxy, simply tap on the T in the middle of the sentence. 43) To "find a mistakes", tap slightly to the right of the letter S in the question, then erase the S with your finger to change it to "find a mistake". Just hit the video skip button. 74) same as above again. 9) click on the words "the answer" in the question. 72) To Tap on the red square, move the shapes out of the way until you find the red square. 24) The color that's the opposite of red in this question is the word "Purple", which is blue. 19) To "tap the red square", move the square in the middle of the screen, drag it over a red circle, then tap it. 47) to guess how many points are on two dice, count the points on one die, and multiply it by two. Instead, simply tap on the bird with your finger.
