

I'm not robot!

Life Save - Mobile Use - Fastthe Divonitord combines a compact and proven design with an intuitive operating concept in a multifunctional emergency solution. Mature and safe technology, simple operation, high quality and absolute reliability, these are just some of the many distinct features of our series of defimonitors. Equipped for professional medical use, Heartsave PrimeAve's AED-n defibrillator features a 4.7" high resolution display monitor, designed to provide essential patient data including ECG display, heart rate, and detected Vfs (ventricular fibrillation). The semi-automatic heart The AED-M supports the respondent with step-by-step guidance throughout the rescue process, using clear voice instructions, basic life saving text instructions and CPR rate metronome. Supplied with a memory card, the AED-M automatically stores all the resuscitation data, which can later be viewed on a PC/laptop for analysis. Exclusive Pad Defib Extras: Product Features: Semi-automatic unit - manages a shock on pressing a button provided with a set of adult pads, battery, memory card, software + unique extrase defibrillator care kit Available separately 6 years manufacturers warranty on the 6-year waiting battery defibrillator unit 3 years waiting life Electrode Pad Life daily The LF tests performed by the unit have a 4.7" monitor to display vital patient and defibrillator data includes a set of SavePads primary hearts displays action time, ECG curve, heart rate, detected VFs, generated defibrillations and basic life support instructions. The ECG defibrillator cable (sold separately) required for precise ECG data designed forBy responders Mother Professional CompactFlash Card & ECG Viewer Software allow the data to be recorded and analyzed á € ught later 4 Language Options to choose from: English, German, Spanish and Portuguese Portuguese a gniretsnimda tuotiw snoitcnuf dna ngised s'rotallirbifed laer eht setacilpeR ;rotallirbifed DEA evaStraeH cidemir 𐄂 𐄂 𐄂 𐄂 𐄂 𐄂 𐄂 𐄂 𐄂 𐄂 𐄂 𐄂 P eht fo serutaef dna snoitcnuf eht lla Ásetalumis ti sa gniniart citsilaer dna no-sdnah htiv stneduts sedivorp tcurdorp siht:serutaeF .rotallirbifed citamotua-imes DEA evaStraeH eht rof dyed gniniart eht si tl .ecived gniniart rotallirbifed citamotua-imes elbatrop si tinU gniniar l'm sorry. : eht morf sartxe evi sulcxE launam resU x 1 erawtfos reweiV GCE x 1 drac hsalFtcapmoC x 1 yrettab muhtil elbaegracheer-non raey 6 x 1 sdaEveaS fo riaP x 1 rotallirbifed M-DEA evaStraeH cidemirP eht yletarapes esahcrup ot elbaliava era sesruoC gniniarT DEA etis-nO tnehtaert dilhc/tnafni rof desu eb ot rotallirbifed eht swolla nottub cirtaidea P tropsnart gnirud noitcetorp dna esae sedivorp esaC yrraC evaStraeH cidemirP lanoitp The straight hsalps dna tsuid tsniara level noitcetorp hgiH esu rof ydaer si tim eht melw setacidni yalpsid sutats evitcA snoisserpmoc RPC rof etar tcerroc eht hsilbatse ot spleh emontem elbidu And elbaliava yrettaB evaStraeH cidemirP 6 training scenarios; Hands-on training experience; Remote control for instructor use - allows training to be managed as needed; 5 reusable trainer electrodes allow users to practice pad placement; Ideal for organised training courses or routine staff training. Please note: This unit is for training purposes only and is not to be used for administering treatment. Contents include: AED Trainer DD; Trainer cable; 5 pairs of trainer electrodes; IR remote control; Remote Control Batteries - 6 x AA batteries. View AIClose HeartSave PADMakes it easy for anyone to become a lifesaver - short and concise voice prompts ensure safe use.Adaptive user guidance - the AED can adapt to the user's working speed to optimise the resuscitation process.Safe to use - the AED decides on its own whether a shock is needed.Pediatric mode / pediatric button - in the event of a pediatric emergency, you do not need special pads for pediatrics, as the AED switches to pediatric mode with the simple press of a buttonPowerful battery (up to 3 Jahre): Always be reliably prepared for emergencies, even in the long term Learn more The Primedic AED is equipped with a convenient button enabling the defibrillator to switch between child and adult mode, meaning that separate child electrodes are not required. The Primedic HeartSave AED automatically turns on when the cover is opened.Á Á The HeartSave comes configured in the Dutch, English, German and French languages as standard, but it is possible to upload alternative languages if required. The Primedic HeartSave AED is more advanced than iteÁÁÁs lower-priced counterpart the Heartsave PAD. It is possible to switch the HeartSave AED to one ofÁ Á 4 different languages during resuscitation, the PAD lacks this function.Á Á This AED has a battery with a shelf-life of 6 years compared to the 3 year lifespan of the battery for the PAD. All Primedic AEDeÁÁÁs are highly resistant to water and. A button on the front The AED can be exchanged for the child mode which means that the shock issued will be in one suitable for a child, without the need to buy or install separate children's electrodes. The Heartsave Aed is equipped with a compactflash memory card to record data and also to record the actual sound during an attempt to resurrect. Computer software to read this data is included. The PrimeDic Heartsave defibrillator has clear and fanciful instructions to understand, complemented by clear display sounds that guide the usual step by step through the rescue procedure. In an emergency, the speed is essential. Farms are the automatic start -up of the defibrillator, as soon as the lid is removed. This AED defines benchmarks when it comes to speed of use.
